

# ELITechGroup SYMPOSIUM

Introducing  
the Rapid Polymyxin NP™ and Superpolymyxin™ tests,  
2 new solutions for detecting and isolating Colistin-resistant strains.

- **Introduction, by Christoph Gauer CEO ELITechGroup**

- **Polymyxin resistance in Enterobacteriaceae – the overall situation**

*Pr. Patrice Nordmann, MD, PhD, Professor and Chair of Emerging Antibiotic Resistance Unit, Medical and Molecular Microbiology, Department of Medicine, Faculty of Science, University of Fribourg, Switzerland*

- **Diagnostic of polymyxin resistance in Enterobacteriaceae – an overview on existing methods**

*Dr. Aurélie Jayol, Bacteriology laboratory & CNRS UMR5234, CHU Bordeaux, France*

- **Evaluation of the Superpolymyxin™ selective medium within the scope of a prevalence survey on colistin-resistant enterobacteriaceae**

*Dr. Jean-Winoc Decousser, Department of Virology, Bacteriology Infection Control, Parasitology Mycology, APHP, University Hospital Henri Mondor, France*

*French INSERM European Unit UMR 1137, IAME, Paris Diderot university, Sorbonne Paris Cité Paris, France*

**Monday, April 24<sup>th</sup> at 6:00 pm**

**Vienna Congress Center - Schubert rooms (1<sup>st</sup> floor)**

and will be followed with a cocktail dinner to agreeably prolong this moment.

**We are looking forward to welcoming you**
